Jupiter Smart Water Meter Platform

Junosoft 聚諾

Introduction

Jupiter Smart Water Meter Platform will empower consumers to become smarter users of water. Being able to manage your near real-time water usage data allows you to adjust your water usage habits, saving water and money in the process.

- Smart meters record the energy use and automatically send meter readings to the energy supplier.
- Track the energy use by day, week, month and year.
- Reduce human labor.
- In cases of shortages, utility will be able to manage and allocate supply.
